EXPERIENCE

Freelance Work | Frontend Developer

07/2025 – 09/2025 | Xorazm, Uzbekistan

- Developed multiple web applications with a strong focus on user interface and user experience (UI/UX)
- Built complex frontend functionalities, including interactive components, API integrations, and state management
- Strengthened frontend development skills by working on frontend architecture and backend integration
- Collaborated effectively in team environments, quickly adapting to workflows and contributing to successful project delivery

START (Najot Ta'lim) | Frontend Developer

09/2025 – 02/2026 | Xorazm, Uzbekistan

- Developed a web application and an admin panel (CRM system) for managing and optimizing business processes
- Cooperates with mutually functional teams and can quickly adapt to teamwork processes and project requirements
- Gained hands-on experience in developing and integrating CRM systems with backend services
- Improved frontend development skills through real-world projects, focusing on clean architecture and scalable, user-friendly solutions

ProBestSoft Group | Frontend Developer

03/2026 – Present | Remote, Uzbekistan

- Developed a secure, real-time chat system within the CRM using WebSockets, enabling instant communication and seamless collaboration between team members.
- Architected and developed a large-scale CRM system focused on business automation, integrating live-chat features and instant notifications for real-time operations.
- Implemented full-duplex communication channels using WebSockets, delivering smooth, zero-latency data synchronization and interactive chat interfaces.
- Collaborated with cross-functional teams to design robust backend integrations for high-frequency chat messages and real-time data updates.

PROJECTS

EducationHub (CRM system) | Frontend Developer | React, TypeScript

[EducationHub](#)

- Developed a web-based CRM system to automate and manage educational centers efficiently
- Implemented data visualization with charts powered by backend data processing
- Added light and dark mode to enhance user experience
- Built the website with a mobile-first approach to ensure responsiveness and usability across devices

Yasin Mebel (CRM system) | Frontend Developer | React, TypeScript

[YasinMebel.uz](#)

- Developed an all-in-one CRM system tailored to fully automate and manage operations for an educational center, covering all aspects of business management.
- Built a responsive, mobile-first interface featuring light and dark modes to enhance accessibility and user experience across all devices.
- Collaborated with backend developers to ensure seamless data flow between the marketplace, CRM dashboard, and analytic tools for efficient company management.

- Developed a multi-tenant CRM platform designed to simultaneously automate and manage operations for multiple businesses from a single, unified system.
- Implemented a real-time chat system using WebSockets, enabling seamless, instant communication between businesses and their clients with zero latency.
- Integrated a user-friendly marketplace (e-commerce shop) with an intuitive interface, allowing businesses to showcase and sell products or services effortlessly.
- Engineered dynamic dashboards with advanced charts and data visualization, converting complex backend analytics into actionable business insights. Built a highly responsive and optimized UI/UX, ensuring a smooth, scalable, and intuitive experience for both business administrators and end-users.

EDUCATION

Full Stack Web Developement (Backend & Frontend), *Najot Ta'lim*

04/2025 – 12/2025 | Xorazm, UZB

Completed an intensive bootcamp focused on backend and frontend development.

JavaScript | TypeScript | Node.js | React.js | Next.js
